

## **Greater Twin Cities Area Chapter Excellence in Promoting the Value of Certification**

Research shows that a higher percentage of certified nurses in the practice setting improves outcomes; therefore, the Greater Twin Cities Area Chapter (GTCAC) focuses much of our efforts on providing certification review courses and continuing education opportunities for those who are certified. Each fall, we host an in-person CCRN/PCCN review course. Each November, GTCAC hosts a two-day symposium highlighting current hot topics in practice settings and provides 14.5 CEs/CERPs. Each February, we sponsor a Journal Club dinner for our members, where all who attend receive CEs. We host a dinner for all of our certified nurses in March, and we host an in-person CMC/CSC review course in April. Eighty percent of our board is either PCCN or CCRN certified. We have the Courage to Soar with excellence in promoting the value of certification in our area of the country.
