

CIRCLE
OF EXCELLENCE 2024

Southern Colorado Chapter Excellence in Chapter Educational Programming

The Southern Colorado Chapter of AACN (SCCAACN) is proud to have fostered growth and educational opportunities for both critical and acute care nurses for over 50 years. We looked forward to meeting again post-COVID-19, to offer quality education and to start organizing our annual Critical and Acute Care Symposium. Throughout our region, we tap into nursing experts to teach on topics that include adult critical care, obstetric emergencies and legal considerations, to name just a few. We have good relationships with our industry partners, who are very happy to help bring in experts outside Colorado. We will continue to focus on Rising Together to provide educational opportunities for our members. The Excellence in Chapter Educational Programming award means a great deal to our members, who work so hard to offer a quality experience for nurses!
