

CIRCLE OF EXCELLENCE 2025

Denver Chapter

Excellence in Chapter Community Education and Public Service

The Denver Chapter of AACN is dedicated to community engagement through outreach, education and collaborative events. In FY25, our chapter wanted to increase community service activities and raise awareness of our efforts throughout the communities we serve. We identified key issues to address, including child abuse, human trafficking, food insecurity and mental health crises. Our chapter has organized various service opportunities, including fundraising for Denver Children's Advocacy Center and Colorado Coalition for the Homeless. We have also volunteered in various ways at the More Than Pink Walk and local food banks. Future goals for FY25 include teaching Narcan administration, hands-only CPR and Stop the Bleed practices in our communities. We are also organizing a collaborative event for this summer with a focus on advocacy work, ultimately striving to make a lasting impact on our communities.
