OF EXCELLENCE 2024**

**Inland Empire Chapter  
Excellence in Chapter Community Education  
and Public Service**

The Inland Empire Chapter of AACN is committed to promoting AACN's mission of excellence in the surrounding communities by offering free CPR training to members of the public we serve. Since December 2022 to the present, the chapter has held four CPR training events, three American Heart Association hands-only CPR events, and one Friends and Family CPR course. All these events were free to the public and strategically scheduled throughout the chapter's service area to ensure the optimal distribution of training. In total, over 200 individuals have been trained so far. The members of the Inland Empire Chapter of AACN will continue to keep "Rising Together" in 2024 to train more community members on the lifesaving skills of CPR.
